1800 217 131

**Modular Building Systems Pty Ltd (MBS) manufacture modern, fully equipped and well designed structures for the health care sectors. Each building complies with relevant health facility guidelines, building codes and Australian Standards. By working closely with our clients, MBS delivers off-site modular constructed building solutions in health care 50-60% faster than conventional construction.**

Our range of health care solutions include:

- | Ward rooms
- | Operating theatres
- | Aged care facilities
- | Kitchens
- | MRI rooms
- | Clinics
- | Medical centres
- | Amenities
- | Laboratories
- | Staff accommodation
- | Records storage
- | Multi-storey

Our off-site modular constructed buildings can integrate seamlessly with existing health and aged care facilities as a direct connection or as a standalone building.
